

Name : Active RFID Card For Long Distance Reading

Model No. : PFH-620 Series

Brand Name : Pegasus

Country of Origin : Taiwan

Specifications :

Model Number	PFH-620			
Type Number	300	320	620	360
Built in proximity 125KHz EM compatible chip	No			Yes
Working Frequency	433.9MHz	433.9MHz (315MHz, 915MHz optional) + 125KHz		
Directivity	Omni-directional			
Modulation	Transmit: FSK, Receiving: ASK			
Power	Built in 3V Lithium Battery			
Battery Life Time	3 Years (10 times reading/day), User can renew battery by oneself.			
Material	ABS			
Working Environment	-20°C~70°C, 10%~90% RH (Non condensing)			
Dimension	54 x 85 x 8 mm			
Weight	38 g			

Reading Distance :

PFH-620-xxx Card Type →	300	320	620	360
Readers ↓				
PF-5210		-	-	-
PFH-9210-620	3~15m (Min. 3 meters)			Max. 3m
PFH-9210-660 (built-in 125KHz proximity reader)		Max. 3m	Max. 6m	Max. 3m (with active mode) 40~60cm (with passive mode)
PFH-9210-60 (125KHz proximity reader)	-	-	-	40~60cm with passive mode
others 125KHz proximity reader	-	-	-	depend on reader

** : We reserve the right to change the specification without prior notice or obligation

Product Description

- RFID Hand-free cards for long distance reading about 3 meters or 6 meters pair with long range RFID readers.
- UHF(315MHz,433.9MHz,915MHz) & 125KHz operating frequency and active type built in battery for better performance & environmental protection.
- CE, FCC Certifications.
- Various cards (type number: 300, 320, 620, 360) for different reading range.
- PFH-620-360 cards built-in 125KHz EM compatible chip can read proximity card readers to apply to "One Card Access" .
